SUMMARY

Full Stack Developer with experience building scalable web applications, SaaS platforms, automation tools, and SEO-optimized websites. Skilled in developing responsive frontends, designing backend APIs, integrating third-party services, and deploying production-ready applications. Experienced with React, Next.js, Astro, Python, FastAPI, databases, and cloud deployment. Passionate about creating high-performance products that solve real-world problems.

EXPERIENCE

Research Intern

Jan 2025 – Jun 2025

Indian Institute of Technology (IIT) Delhi

New Delhi, India

- Built and deployed **scalable REST APIs** using **FastAPI** for search, retrieval, and LLM-based querying over archaeological document collections; integrated with frontend for real-time responses.
- Developed an OCR pipeline in Python integrating Tesseract, Marker, and Gemini OCR — processing diverse document types and structuring output for downstream vector indexing.
- Implemented hybrid search combining **FAISS/Pinecone** (dense) and **Apache Solr** (sparse) via a unified Python interface.

Full Stack Developer Intern

Oct 2024 – Nov 2024

MitoVoid AI

Remote

- Developed and maintained responsive **web applications** with modern **frontend frameworks** and **REST APIs**.
- Built reusable **UI components** and optimized application performance across devices and browsers.
- Integrated **backend services, databases, and third-party APIs** to deliver end-to-end product features.
- Collaborated with cross-functional teams to **deploy** and test production-ready applications.

PROJECTS

Resume Mailer | Next.js, React, FastAPI, PostgreSQL, Email Automation

Apr 2026 – Present

- Building a **full-stack** career automation platform with a **React/Next.js frontend** and **FastAPI backend**, covering resume creation, cover letter generation, and application tracking.
- Designed **RESTful APIs** and a **PostgreSQL database schema** to manage users, resumes, and campaigns at scale.
- Implemented dynamic resume customization that adapts content based on job descriptions and user profiles.
- Developing bulk email campaign automation with personalized templates, queuing, and delivery tracking.

InterviewPrep | Next.js, React, TypeScript, Tailwind CSS, SEO

May 2026 – Jun 2026

- Built a **full-stack** interview preparation platform using **Next.js** and **TypeScript**, featuring 700+ curated technical and behavioral questions.
- Implemented company-specific prep tracks, interactive flashcards, and mock interview flows with **React component architecture**.
- Engineered a fully **responsive UI** with dark/light mode and SEO-optimized static generation.
- Achieved a 95+ Lighthouse score through static rendering, schema markup, and performance tuning.

Music Identification App | Flutter, Python, ACRCLOUD API, REST APIs

Jun 2024 – Sep 2024

- Developed a **full-stack** music recognition app with a **Flutter frontend** and **Python backend services** for audio processing.
- Built and integrated **REST APIs** for metadata retrieval and third-party audio recognition via ACRCLOUD.
- Designed mobile UI components from Figma prototypes into a production **Flutter** interface.
- Delivered an end-to-end workflow from audio capture to song identification and result presentation.
